Claudia Araos

Junior Web Developer (Frontend-Focused)

Portfolio: <https://claudias-hub.github.io/myportfolio>

GitHub: <https://github.com/claudias-hub>

Junior Web Developer with a focus on Frontend technologies, trained in Full-Stack development (MERN stack). Experienced in building responsive applications with React, Angular, and Node.js. Transitioning from a background in logistics and customer operations, bringing strong organizational skills, reliability, and a user-centered mindset to a junior or internship role.

Looking for: Junior or Internship role · Remote or Onsite

Work Experience

- 2015 - 2020
LCM Reinigung GmbH - Cleaning Service
 - Completed physically demanding cleaning tasks across multiple locations in Berlin.
 - Adapted quickly to new environments and schedules.
- 2011 - 2014
Protours Chile - Finance & Operations Assistant
 - Coordinated logistics for group travel (guides, transfers, restaurant bookings) under tight deadlines.
 - Supported scheduling, payroll and supplier relations with attention to detail.
 - Developed strong organizational and problem-solving skills in a fast-paced environment.
- 2003 - 2011
Various, Chile - Hospitality & Bookstore Roles
 - Worked as waitress, cashier and bookstore assistant, handling daily customer interaction and payments.
 - Managed the family bookstore independently at times (cash register, supplier payments, staff supervision).

Web Development Projects

MyFlix App - Full-Stack Movie Application

- Tech: React, Angular, Node.js, Express, MongoDB.
- Description: Developed a complete full-stack application including a REST API and two different frontend clients. Implemented secure user authentication (JWT) and data persistence for user "favorites" lists.

Meet App - Serverless PWA for Events

- Tech: React, AWS Lambda, Google Calendar API.
- Description: Built a Progressive Web App that allows users to view upcoming events offline. Used Test-Driven Development (TDD) to ensure code quality and integrated data visualization charts using Recharts.

Chat App (Mobile Development)

- Tech: React Native, Expo, Google Firebase.
- Description: Created a mobile chat application for Android and iOS. Implemented real-time messaging, image sharing, and location features using Firebase Firestore and Storage.
